Objective

Dedicated and motivated individual with analytical and problem-solving skills, focused on developing efficient and user-friendly software solutions. Passionate about teamwork, adaptability, and building real-world applications using modern technologies. Committed to continuous learning, personal growth, and contributing to innovative and impactful technology solutions.

Education

- Srinivas Institute of Technology, Mangalore**
B.E. Computer Science and Engineering, 2022-2026 8.9 cgpa
- Parijnan PU College , Mangalore**
Pre-University, 2020-2022 95%
- Bhagavathi English Medium School , Mangalore**
SSLC, 2019-2020 90%

Projects

Website for Recipe Finder:

- Developed an interactive web application using HTML, CSS, JavaScript.
- Designed a JSON-based database to support efficient storage and retrieval.

Network Anomaly Detection using ML:

- Developed a machine learning-based framework for real-time network anomaly detection using algorithms like RNN,KNN and LSTM.
- Improved detection accuracy and reduced false positives by building a scalable and adaptive cybersecurity model.
- Implemented real-time packet capture using Scapy to enhance live anomaly detection.

Internships:

- AI-ML (Virtual Internship) from AICTE, Duration: 10 weeks.
- Python Fullstack Developer (Virtual Internship) from AICTE, Duration: 10 weeks.
- Data Analytics (Virtual Internship) – Deloitte Australia (Forage), Duration: 4 weeks.

Achievements

- Published research paper 'Recipe Finder' in JETIR, Vol. 12, Issue 7, July 2025.
- Actively participated in a hackathon, collaborating with peers on a problem-solving challenge.
- Actively involved in NSS awareness campaigns and volunteering activities.

Technical Skills

- Programming Languages:** Java, C, Python
- Web Development:** HTML, CSS, JavaScript
- Database Management:** MySQL, MongoDB
- Tools:** GitHub, Visual Studio Code, MS Excel, Canva
- Operating Systems:** Windows, Linux

Skills

- Communication Skills
- Team Collaboration
- Leadership
- Time Management

Certifications

- No SQL-MongoDB by IBMCE
- IT Specialist - Cloud Computing from Certiport
- Advanced Java Programming Certification from Ethnotech Academy
- Database Using SQL Certification from Ethnotech Academy
